

ELECTRIC SOUTH

14 December 2017

To whom it may concern,

I'm writing this letter of recommendation on behalf of Stanford Gibson, whom I've had the pleasure of working with for the past year at Electric South.

Stanford was hired as a Virtual Reality Producer for us at Electric South, a small non-profit organization based in Cape Town promoting, exhibiting, training and producing Virtual Reality across Africa.

Stanford has shown himself to be diligent and consistent. He has a keen eye for detail, adapts well and created methodical working processes that helped him manage his time and to deliver on many deadlines. He was hired to perform administration duties such as managing production schedules and budgets of productions, as well as arranging logistics and equipment across the continent.

He showed strong writing and communication skills, liaising with filmmakers, artists, service providers, and international festivals and exhibition space. He drafted funding reports and proposals and organised workshops and exhibitions at film festivals in both Johannesburg and Cape Town where he managed teams of volunteers and interns.

Stanford is friendly, helpful and can easily build professional relationships. He shows commitment even when under pressure. This was evident at some of the workshops we ran where he had to troubleshoot every day while maintaining a high standard of engagement.

I highly recommend Stanford as an employee at your company, he would truly be an asset.

Please do not hesitate to be in touch if you have any further questions.
